

MESI CONFERENCE 2026

RE:DIAGNOSE with **Integrated Diagnostics**

Monday & Tuesday
18–19 May 2026

Hotel Rikli Balance
Bled, Slovenia

Modern healthcare requires diagnostics that support **clarity, speed, and confident decision-making.**

At the MESI Conference, we bring together **partners, healthcare professionals, and decision-makers** to explore how integrated diagnostic solutions are shaping technology, practice, and outcomes.

MONDAY

18
May

FROM INSIGHT TO IMPACT

Expert guests, real clinical cases, and dynamic debates focused on three key pillars:

RE:THINK Technology

The daily burden on healthcare professionals caused by fragmented tools and disconnected systems.

RE:DEFINE Workflows

Simplifying clinical routines through connected, protocol-driven workflows.

RE:SET Outcomes

How integrated diagnostics lead to better experiences for clinicians and better outcomes for patients.

TUESDAY

19
May

FROM CONCEPT TO PRACTICE

The second day is fully dedicated to interactive workshops.

Hands-on sessions will allow participants to explore solutions in depth, exchange practical knowledge, and translate ideas into everyday clinical practice.

Bled. Balance. Perspective.

Hosted at Hotel Rikli Balance in Bled.

Register now and secure your place.

Participation fee: 390 €
